AUR20212 - Certificate II Automotive Air Conditioning Technology

Covers the skills and knowledge required to perform a range of tasks related to servicing and repairing air conditioning components and systems of cars and heavy vehicles.

**Gap Training**
A gap training course for learners to obtain a nationally accredited automotive mechanical air conditioning qualification. Designed for 4th year apprentices or those with an automotive service and repair trade qualification but little or no knowledge of servicing and repairing air conditioning components.

**Units Covered**
- **AURAEA2002** - Apply environmental and sustainability best practice in an automotive workplace.
- **AURETU2001** - Install air conditioning systems.
- **AURETU2003** - Service air conditioning and HVAC systems.
- **AURETU3004** - Diagnose and repair air conditioning and HVAC systems.
- **AURETU3005** - Retrofit and modify air conditioning and HVAC systems.

**PREREQUISITES**
Learners must have a Refrigeration and Air Conditioning Trainee Licence from the Australian Refrigeration Council (ARC) – refer to arctick.org for further information. Learners must supply MTA Institute with relevant evidence of their qualifications. Applicable units of competency will be transferred to the new qualification.

**Course length**
Three days of college-based training and assessment. 8:30am – 4:30pm daily (lunch and morning tea provided).

**Cost**
- $1,100 per person (inclusive of GST)
- $990 for MTAQ members.

**Enrol**
For further information contact one of our friendly team members using the contact details below.

**Course Commencement**
Course dates are scheduled regularly throughout the year. Commencement usually occurs within 28 days of enrolment.
