AUR21212 - Certificate II
Automotive Underbody Technology

This traineeship involves the inspection of vehicle systems, components and diagnostic procedures prior to the inspection and servicing of braking systems, steering and suspension systems, and repair of exhaust systems.

These activities will include carrying out welding, soldering and thermal cutting and heating procedures.

Course Length
The nominal duration to complete this competency based traineeship is 12 months full time. This duration is proportionately increased for part-time and school-based arrangements. The MTA Institute’s flexible training model takes into account the learner’s skills and knowledge acquired through previous training and experience. This may lead to a reduction in the time required to complete this traineeship.

Fees and Charges
In most cases the Queensland Government contributes 75% towards the cost of training and MTA Institute contributes towards the remaining 25%. Learners are required to pay a minimal co-contribution fee determined by the Government.

Incentives
An employer of a trainee may be eligible for Commonwealth incentives. For further information contact Australian Apprenticeship Pathways on 1800 338 022 or go to their website www.aapathways.com.au

Enrol
For further information contact one of our friendly team members using the contact details below.

Course Commencement
Commencement usually occurs within 28 days of enrolment.
