Dual Qualification

Want a second qualification? Want to further your education? Looking to advance your career?

To help combat the skills shortage in Queensland and to meet technological change, funding is available for automotive trades people to achieve a second trade. Dual qualifications can be achieved by the traditional apprenticeship style training and assessment method, however Recognition of Prior Learning (RPL) and Credit Transfer (CT) from previous qualifications will be applied.

Qualifications the MTA Institute can offer are:

- Automotive Body Repair
- Automotive Electrical
- Agricultural Mechanical
- Automotive Refinishing
- Heavy Commercial Vehicle Mechanical
- Light Vehicle Mechanical
- Mobile Plant
- Motorcycle Mechanical

Contact the MTA Institute to find out if you are eligible for this dual qualification pathway.

Fees and Charges

In most cases the Queensland Government meets the cost of training. This means that neither the employer nor the trainee pay for the training component of the apprenticeship. However, there is a Government requirement for all learners to pay a minimal contribution fee determined by the Government.

Course Length

The nominal duration to complete this competency based apprenticeship is 4 years full time, however, the MTA Institute takes into account the learner’s skills and knowledge, including direct credits and RPL from previous qualifications. This may lead to a reduction in the time required to complete this apprenticeship.

Incentives

An employer of an apprentice may be eligible for Commonwealth incentives. For further information contact Australian Apprenticeship Pathways on 1800 338 022 or go to their website www.aapathways.com.au

Enrol

For further information contact one of our friendly team members using the contact details below.

Course Commencement

Commencement usually occurs within 28 days of enrolment.
