A C C R E D I T E D

AUR20220 - Certificate II Automotive Air Conditioning Technology

Designed for qualified tradespeople seeking to extend their skills and knowledge to service and repair automotive air conditioning components and systems.

Licensing

Competent completion of this qualification will enable the learner to apply for an AAC02 *Refrigerant handling licence* – qualified persons with the Australian Refrigeration Council.

Prerequisites

- An automotive trade qualification
- A refrigeration and Air Conditioning Trainee Licence (refer to arctick.org for further information).

Units Covered

- **AURETU103** - Service air conditioning and HVAC systems
- **AURETU104** - Diagnose and repair air conditioning and HVAC components

Gap Training

Other units essential to this qualification:

- **AURASA102** – Follow safe working practices in an automotive workplace
- **AURAEA002** – Follow environmental and sustainability best practice in an automotive workplace.
- **AURETR112** - Test and repair basic electrical circuits
- **AURTTA118** - Develop and carry out diagnostic test strategies

An additional six units will be selected, mapped, and gap trained (if applicable) from the learner's trade qualification.

Course Length

3 days of college-based training and assessment, (dependent upon the learner's previous experience). Other activities outside this timeframe will also be required.

Cost

- Non-member \$1,500-\$2,000
- MTAQ members receive 20% discount
- Where fees are over \$1,500 a payment plan will be implemented.

Course Commencement

Dates are scheduled throughout the year and are available at www.mtai.edu.au.
